## INDEX TO VOLUME 35

### ARTICLES

- Ability to Recognize and Apply Scientific Principles in New Situations, J. Harold Owens, 202-213.
- Atomic Era, Preparing High School Students for the, Harold J. Abrahams, 266-268.
- Bibliography with Annotations for Science in General Education at the College Level, Vaden Miles, 159-176.
- Bibliography of Curriculum Materials in Science, Hugh B. Wood and Howard Impevocen, 269-271.
- Biology, A Pilot Study of Various Methods of Teaching, Kenneth E. Anderson, Fred S. Montgomery, and Robert W. Ridgway, 295-298.
- Biology, Validity of Student Opinions in Evaluating a Program of College, H. B. Crouch and C. M. Leathers, 73-76.
- Biology and Physical Science for Ninth- and Tenth-Grade Students, Nelson L. Lowry, 71-73.
- Biology Teacher, Society Challenges the, Barbara A. McEwan, 289-291.
- Biology Textbooks, Use of Teaching Aids in, Francis St. Lawrence, 77-81.
- Chemistry Teachers, Subjects Taught by High School, Alabama, 1948-1949, Will S. DeLoach and Auburn Russ Hall, 259-261.
- Construction and Evaluation of a New General Science Test, John G. Read, 262-266.
- Cooperative Committee on the Teaching of Science and Mathematics of the A.A.A.S., Report to the NARST on the Activities for 1950-51 of the, George Griesen Mallinson, 189-193.
- Correlation of Biology and English, Irene Hollenbeck, 287-289.
- Current Materials: A Problem in Teacher Education, Developing Skills in the Use of, B. Frank Gillette, 41-43.
- Dental Aptitude Testing Program Will Become Nation-wide for the 1951 Entrants, Shailer Peterson, 119-121.
- Deserts on the March*, Re-Examination of, Charles Wilford Johnson, 274-276.
- Determination of Principles Desirable for a Course of General Science at the Junior High School Level, Herbert F. A. Smith, 279-284.
- Developing Skills in the Use of Current Materials: A Problem in Teacher Education, B. Frank Gillette, 41-43.
- Education of Teachers of Science, The, Theresa J. Lammers, Paul E. Blackwood, J. Ned Bryan, William C. Forbes, Julian Greenlee, Willard Jacobson, Rose Lammell, Mervin E. Oakes, George Pitluga, and S. Ralph Powers, 139-156.
- Educational Requirements for Those Planning to Study Medicine, S. Milton Nabrit, 114-118.
- Electricity and Electronics, Some Concepts Basic to an Understanding of, Robert J. Stollberg, 3-16.
- Experimental Study of the Effects of Field Trips Upon the Development of Scientific Attitudes in a Ninth-Grade General Science Class, An, Helen W. Harvey, 242-248.
- Field Trips, and Experimental, Study of the Effects of, Upon the Development of Scientific Attitudes in a Ninth-Grade General Science Class, Helen W. Harvey, 242-248.
- Financial Report of NARST, Clarence M. Pruitt, 218.
- Fundamentals of Sound Through Vision, Ewart L. Grove, 250-251.
- General Education at the College Level, Bibliography with Annotations for Science in, Vaden Miles, 159-176.
- General Education, Integration in College Courses in Science for, James S. Perlman, 122-133.
- General Education, Syllabus in Biology for, Nathan S. Washton, 84-92.
- General Education Science Courses, Teaching and Teaching Procedures in College, Robert A. Bullington, 92-104.
- General Science at the Junior High School Level, Determination of Principles Desirable for a Course in, Herbert F. A. Smith, 279-284.
- General Science Test, Construction and Evaluation of, John G. Read, 262-266.
- Growth of the Experimental Sciences, W. C. Van Deventer, 112-114.
- Harvest of the Sea, William Gardner, 39-41.
- Increased Pupil Responsibility for Pupil Learning Experiences, W. W. E. Blanchet, 187-188.
- Information Concerning Science Education Research 1949 and 1950, Philip G. Johnson, 193-197.
- Integration in College Courses in Science for General Education, James S. Perlman, 122-133.
- International Education, Midwest Seminar: An Experiment in, W. C. Van Deventer, 107-111.
- Laboratory Demonstration Stroboscope, A, Ronald L. Ives, 253-259.
- Making Teaching Attractive, Ida T. Smith, 237-240.
- Making Teachers Aware of the Science Teaching Resources in their Community, Dale Elton Nelson, 69-71.
- Man's Thinking, Teaching Science in Relation to, W. C. Van Deventer, 104-106.
- Midwest Seminar: An Experiment in International Education, W. C. Van Deventer, 107-111.
- Need for an Improved Program for Training High School Physics Teachers, Gordon M. Dunning, 291-295.
- New and Old in Science Teaching, R. Will Burnett, 43-54.
- Official Minutes of Business Meeting of NARST, Clarence M. Pruitt, 219-220.
- Pandora's Panacea, Robert D. MacCurdy, 249.
- Physics for the Blind, Arthur H. Bryan, 271-274.
- Physics in the Oklahoma High Schools of 1951, Status of, Max V. Maneval, 241.
- Physics Teachers, Need for an Improved Program for Training High School, Gordon M. Dunning, 291-295.

- Physical Science for Ninth- and Tenth-Grade Students, Biology and, Nelson L. Lowry, 71-73.
- Pilot Study of Various Methods of Teaching Biology, A. Kenneth E. Anderson, Fred S. Montgomery, and Robert W. Ridgway, 295-298.
- Preparing High School Students for the Atomic Era, Harold J. Abrahams, 266-268.
- Problematic Life Situations, Science Education and the Development of Abilities to Cope with, Willard J. Jacobson, 156-159.
- Progress Report of the Atomic Energy Committee, Jerome Metzner and Abraham Raskin, 206-207.
- Progress Report of the Committee on Research in College Science, W. C. Van Deventer, 202-204.
- Progress Report of the Committee on Educational Trends, Elsa Marie Meder, 197-200.
- Progress Report of the Committee on Research in Elementary Science, N. E. Bingham, 201-202.
- Progress Report of the Committee on Research in Problem-Solving in Science Teaching, J. Darrell Barnard, 200.
- Progress Report of the Committee on Research in Secondary School Science, Kenneth E. Anderson, 204-206.
- Progress Report of the Development of a Twelve-Year Science Curriculum in the New York City Schools, Alfred D. Beck, 214-215.
- Re-Examination of *Deserts on the March*, Charles Wilford Johnson, 274-276.
- Report of the Publications Committee, Vaden Miles, 218.
- Report to the NARST on the Activities for 1950-51 of the Cooperative Committee on the Teaching of Science and Mathematics of the A.A.A.S., George Griesen Mallinson, 189-193.
- Research 1949 and 1950, Information Concerning Science Education, Philip G. Johnson, 193-197.
- Research Program of the Illinois Secondary School Curriculum Program, The, R. Will Burnett and Charles W. Sanford, 65-69.
- Resources in Their Community, Making Teachers Aware of the Science Teaching, Dale Elton Nelson, 69-71.
- Science Education and the Development of Abilities to Cope with Problematic Life Situations, Willard J. Jacobson, 156-159.
- Science Fiction for Science Students, John D. Woolever, 284-286.
- Science Interests, Training of Future Scientists II: Origin of, Paul F. Brandwein, 251-253.
- Science Teaching, New and Old, R. Will Burnett, 43-54.
- Scientific Attitudes in a Ninth-Grade General Science Class, An Experimental Study of the Effects of Field Trips Upon the Development of, Helen W. Harvey, 242-248.
- Scientific Inquiry for Teachers, Richard H. Lampkin, 17-39.
- Scientific Principles in New Situations, Ability to Recognize and Apply, J. Harold Owens, 207-213.
- Selecting Science Textbooks, Charles W. Crombie, 276-278.
- Selection and Training of Future Scientists II: Origin of Science Interests, Paul F. Brandwein, 251-253.
- Society Challenges the Biology Teacher, Barbara A. McEwan, 289-291.
- Some Concepts Basic to an Understanding of Electricity and Electronics, Robert J. Stollberg, 3-16.
- Some Reasons for Student Failures in Medical Schools, A. W. Hurd, 81-84.
- Sound Through Vision, Fundamentals of, Ewart L. Grove, 250-251.
- Status of Physics in the Oklahoma High Schools of 1951, Max V. Maneval, 241.
- Stroboscope, A Laboratory Demonstration, Ronald L. Ives, 253-259.
- Subjects Taught by High School Chemistry Teachers, Alabama, 1948-1949, Will S. DeLoach and Auburn Russ Hall, 259-261.
- Syllabus in Biology for General Education, Nathan S. Washton, 84-92.
- Teachers and Teaching Procedures in College General Education Science Courses, Robert A. Bullington, 92-104.
- Teaching Science in Relations to Men's Thinking, W. C. Van Deventer, 104-106.
- Use of Teaching Aids in Biology Textbooks, Francis St. Lawrence, 77-81.
- Validity of Student Opinions in Evaluating a Program of College Biology, H. B. Crouch and C. M. Leathers, 73-76.
- Workshop for Science Teachers, N. E. Bingham, 177-184.
